

SPS QI Project Application 2023-24

*This application form is intended to serve as a template for formulating your thoughts on a potential sedation-related Quality Project. It is **NOT** intended for full completion at this point. During the application process, we are seeking ideas and we are not expecting a completed project.*

*Please use the boxes below to sketch out your ideas, in particular the **Aim** of the project and your thoughts on **Interventions and Metrics** to address the Aim (what might you change and how would you measure the change). Preliminary ideas may be amended when the group comes together. The **Results** section of the application is included for informational purposes only, and includes the expectations of the American Board of Pediatrics if you are interested in Maintenance of Certification credit.*

Submit Completed Application by September 1, 2023 to Joye Stewart at joye@societyhq.com.

(to be used only by QI Project subcommittee chairs)

Proposed Quality Improvement Project Title:

The purpose of this project is:

ABP MOC Part 4 credit

Center of Excellence Quality Story

General Quality Improvement

_____ Other: _____

Practice Gap:

(What is a common “pain point” in your clinical practice? Consider a problem that is clinically important, where practice deviates from what is known about the topic, and that can be addressed by an intervention)

Best Practices:

(Identify a key reference or guideline that outlines standards/recommendations for clinical practice)

Proposed Aim/ SMART GOAL:

*(What would you hope to improve, by **when**, and by **how much**?)*

Proposed Interventions/ Methods:

(What changes might address the practice gap?)

Proposed Measurements/ METRICS:

(How will you identify whether improvement has occurred?)

1. Measure/Metric Name: (could be outcome measure and/or process measure)
2. Unit of Measurement
3. Data source and number (For ABP MOC Part 4 submission: need at least 10 patient de-identified charts or data/time point)
4. Collection Frequency/Time points (For ABP MOC Part 4 submission: need at least 3 timepoints; preferably pre-intervention, post-intervention and sustain phases)

Results:

For ABP Part 4 submission: process and outcome metric results for at least three timepoints (Pre-intervention/baseline, post intervention and sustain phases)

Challenges anticipated in the QI process:

QI Participant attestation: (FYI, will be required for all ABP MOC Part 4 submissions)

All participating providers:

1. Provided direct care of pediatric procedural sedation services
2. Engaged in planning, developing and implementing strategies and processes
3. Participated in documentation, data collection, reporting and analysis
4. Interpreted and analyzed the data and collaboratively framed the submission of the QI project to meet ABP small group project criteria.
